

Studia Quaternaria vol. 32 no. 1

Paleoenvironmental reconstructions using non-pollen palynomorphs and subfossil Cladocera

Editorial	3
<i>Lyudmila S. Shumilovskikh, Frank Schlütz, Inke Achterberg, Andreas Bauerochse, Hanns Hubert Leuschner</i> Non-pollen palynomorphs from Mid-Holocene peat of the raised bog Borsteler Moor (Lower Saxony, Germany)	5
<i>Marta Szal, Mirosława Kupryjanowicz, Mariusz Wyczółkowski</i> Anthropogenic transformation of the vegetation in the immediate vicinity of the settlement complex at Poganowo (Mrągowo Lakeland, NE Poland)	19
<i>Magdalena Filoc, Mirosława Kupryjanowicz</i> Non-pollen palynomorphs characteristic for the dystrophic stage of humic lakes in the Wigry National Park, NE Poland.	31
<i>Monika Niska, Anna Kołodziej</i> History of development and terrestrialization of Lake Starowlany in the Eemian Interglacial based on Cladocera analysis (Sokółka Hills, NE Poland)	43
<i>Krzystyna Szeroczyńska, Edyta Zawisza</i> Cenotes – lakes of the Yucatan Peninsula (Mexico).	53

Studia Quaternaria vol. 32 no. 2

Quaternary sediments and paleoenvironments

Editorial	61
<i>Katarzyna Pochocka-Szwarc, Dariusz Krzyszkowski</i> The outwash plain of the Rospuda River valley – a record of depositional environments	63
<i>Joanna Rychel, Barbara Woronko, Mirosław T. Karasiewicz, Paweł Szymczuk, Marcin Morawski</i> Ice-sheet dynamics of Warta Glaciation (Saale) in the marginal zone of Knyszewicze area, northeastern Poland.	79
<i>Eva Břízová, Małgorzata Roman</i> Disturbances of the Holocene lake-bog sediment succession as revealed by pollen record from Wietrzychowice (southeastern Kujawy, central Poland)	91
<i>Dariusz Krzyszkowski, Lucyna Wachecka-Kotkowska, Dariusz Wieczorek, Andrzej Stoiński</i> Petrography of glacial tills in the Szczerców outcrop, central Poland – problems of stratigraphic interpretation	99
<i>Krzystyna Szeroczyńska, Edyta Zawisza, Marta Wojewódka</i> Initial time of two high altitude crater lakes (Nevado De Toluca, Central Mexico) recorded in subfossil Cladocera.	109
